

The **VanS Application Manager** is a powerful and easy-to-use tool that enables you to access information from the VanS database. It also provides a means for users to generate their own reports and inquiries without having a programming background.

Report Writer

- ◆ Generate custom reports and save them for future use.
- ◆ Modify existing reports without starting over.
- ◆ Generate inquiries as well as reports.
- ◆ Generate custom labels.
- ◆ Create an ASCII file for transfer to other applications.

Sorting

- ◆ Customize the way the file is sorted, displaying information the way you need it.

Selection

- ◆ Search and select information on any field you need for inquiries or reports.

Totaling

- ◆ Sub-total or total any amounts for analysis.

Menu Writer

- ◆ Create custom report menus to suit each user's specific tasks.

Security

- ◆ Define menu access by login or password.
- ◆ Restrict access by menu, report, file, and fields within a file.

On-line Help

- ◆ Available throughout the Application Manager.
- ◆ Simply enter "?" and instructions appear on the screen relevant to the task.
