VanS 6.0 Highlights

VanS 6.00 is the latest release of the VanS software and contains several new features. Contact Compusource Hotline to schedule your update in July, August or September.

- Enhanced Revenue Transaction Journals to allow them to be run and approved by user
- Improved Transaction Journal processing speed
- Added Revenue Transaction Journals reprint
- Rewrite of Order Memo System for many user improvements
- Increased/tightened user security
- Enhanced automatic dispatch task creation to allow an unlimited number of tasks to be created automatically (former limit of 3)
- Enhanced automatic dispatch task creation to be able to add tasks for multi-day jobs
- Enhanced Cash Receipts order creation to call full order entry to allow more order parameters to be set and also to allow customers to be created on the fly (as long as user security permits)
- Enhanced driver system to add an expense overlay that can be optionally used in place of the driver number when deriving the driver expense account in revenue entry
- Enhanced driver system to allow the invoice# of the driver AP invoices to be defined using variables (formerly always YYMMDD)
- Enhanced MoveTrak to increase the number of default coordinators assigned to a CSR from 9 to 24
- Enhanced MoveTrak to allow individual tasks to be re-opened instead of forcing the system to attempt to re-open all tasks
- Enhanced Forms Designer Form Print to provide the ability to change the case of printed fields (e.g. capitalized address fields)

VanS Software Migration

STOP! If you're currently working with a third party to upgrade the server that houses the VanS software, please contact Compusource Hotline NOW so that we can schedule migration of the VanS software to the new server.
